

Powder mixer

VH high efficient mixer

VH high efficient mixer

VH high efficient mixer is suitable for mixing dried powder and granules in pharmacy, chemical, food, fodder, pottery, metallurgy industries. Feed materials by hand or vacuum device. It mix the materials by stirring V shape cylinder which is driven by motor.

Characteristics

VH high efficient mixer adopts V type asymmetric material tube to compound, having no dead angle, high efficiency, rational structure and easy to operate. The tube is made of stainless steel, the inner wall is bright and easy to clean. It is a ideal equipment for mixing.

Technique parameter

Model	Barrel capacity (L)	Feed volume (L)	Feed weight (kg)	Agitation speed (r/min)	Mixing time (min)	Motor power (KW)
VH8	8	0.4	2.5	60	6-8	0.25
VH14	14	0.4	4	46	6-8	0.37
VH100	100	0.4	28	15	6-8	1.1
VH150	150	0.4	50	15	6-8	1.1
VH200	200	0.4	55	12	6-8	1.5
VH300	300	0.4	80	12	6-10	1.5
VH500	500	0.4	140	12	6-10	2.2
