

# Rotary tablet press

## ZP 5/7/9 punching automatic rotary tablet press

### **ZP 5/7/9 punching automatic rotary tablet press**

ZP 5/7/9 punching automatic rotary tablet press is a double-press type continuous automatic tablet press for pressing granular raw materials into tablets. It is mainly used in pharmaceutical, chemical, food and electronic industries. The cover is made of stainless steel with close type. The inner tablet surface is also made of stainless steel materials which could keep surface luster and prevent from cross pollution. Our ZP 5/7/9 punching automatic rotary tablet press meets GMP requirement. It has transparent windows so that press condition can be observed clearly and the window can be opened. Cleaning and maintenance is easier. The speed adjustment of the driver is controlled by the frequency conversion device. An overload protection unit is included in the system to avoid the damage of the punches and apparatus. When overload occurs, the machine stops automatically. This machine also has electronic magic driver and other safety protection device which can be adjusted and operated when running.

Model	ZP-5	ZP-7	ZP-9
Dies (sets)	5	7	9
Max. Pressure (KN)	40		
Max. Dia. of tablet (mm)	12 ( special 14 )		

Max. Filling Depth (mm)	15		
Thickness of largest tablet (mm)	6		
Turret speed (r/min)	30		
Production capacity (pc/h)	9000	12600	16200
Motor Power(KW)	1.5		
Overall dimensions(mm)	480*630*1100		
Net weight (kg)	260
