

# Rotary tablet press

## ZPW-4 rotary tablet press

## **ZPW-4 rotary tablet press**

### **Main application:**

ZPW-4 rotary tablet press is dedicated for manufacturing military and civilian hard stacks. The manufacturing process for hard stack is subdivided into five sections, biscuit forming, flour applying, mixing, pressing and packing. In the manufacturing process, biscuit compressor is the key device for pressing.

### **Technique parameter:**

Manual loading ,automatic pressing and discharging Four-station running and double-module pressing	
Max. Working pressure (kg/m)	180-250
Max. Dia. of table (mm)	40*80
Max. Filling Depth (mm)	40
Max. Thickness of table (mm):	15-30
Max. Working Dia. (mm)	750
Speed of rotary table (r/min)	8
Max. Output (pieces/h)	3840

Power (kW)	7
Outer dimensions (mm)	1240*920*1710
Net weight (kg)	2000
